November 23, 1987

Dear mr. Weisberg,

I hope you remember me, I have corresponded with you in the past. I am still researching my heart out on the Kennedy assassination. I've concluded that it is a never ending subject.

I have now decided to take on the challenge of writing my own book or booklet on this subject. I am not trying to establish a theory however I do want to keep such valuble information as your's alive. My purpose is to print updated information and pictures. I also do want to compare old information by reprinting information such as your's and old newspaper clippings. I do have all of your books and consider them sacred and priceless. The purpose of this letter is to request your permission to reprint some of your finding's written ~~of~~ in your books, also possibly to receive your endorsement after the manuscript is concluded. I hope this letter finds you in good health. God Bless You,

Respectfully,
Robert D Milner
